Company Announcements Office  
Australian Securities Exchange

## **RESPONSE TO ARTICLE IN THE AUSTRALIAN PAGE 29, 9 FEBRUARY 2009**

With respect to the article on page 29 of the Australian Newspaper 9 February 2009, Gold Aura Limited advises that as part of its business it frequently discusses corporate opportunities with various parties.

Discussions currently underway with Anomaly Resources and others are at a no commitment, very preliminary, stage.

When the company believes that discussions have reached a point that requires disclosure to the market, the Company will make such disclosure.

### **About Gold Aura**

Gold Aura's principal activity is the global exploration for world class mineral resources. Its current focus is evaluation of the vein style polymetallic (zinc-tin-copper-silver dominant) mineralisation discovered at Croydon, the BacTech funded gold exploration program at Fergusson Island in PNG and the commencement of exploration at the high grade gold Sao Chico property in Brazil.
